2. BACKGROUND: Valley Meat Company, a Modesto, Calif. establishment, is recalling approximately one million pounds of frozen ground beef patties and bulk ground beef products that may be contaminated with E. coli O157:H7. FSIS became aware of the problem on July 15 when the agency was notified by the California Department of Public Health (CDPH) of a small E. coli O157:H7 cluster of illnesses with a rare strain as determined by PFGE subtyping. Six patients with illness onset dates between April 8 and June 18, 2010 were reported at that time. After further review, CDPH added another patient from February to the case count, bringing the count to seven. The recall extends only to the products listed below that were produced between October 2, 2009 and January 12, 2010 and were sold in California, Texas, Oregon, Arizona and internationally.

3. PRODUCTION DATES/IDENTIFYING CODES:

All products subject to the recall bear the establishment number "EST. 8268" inside the USDA mark of inspection as well as a five-digit code that signifies the date they were produced. The affected 2009 products will carry a number between 275 and 365 before the "09" ending. The affected 2010 products will carry a number between 001 and 012 before the "10" ending.
